

THERE'S POWER IN GROUP PURCHASING

Based on a successful model that has saved over a 100 organizations millions of dollars in Washington DC and Connecticut, the Community Purchasing Alliance (cpa.coop) and Dupage United/Fox River Valley Initiative (dupageunited.org), Lake County United (lakecountyunited.org), and United Power (united-power.org) are partnering to bring cooperative purchasing to congregations and other community institutions here in the Chicago Region.

BE
PART OF
OUR ENERGY
BUYING
GROUP

Community Purchasing Alliance (CPA) is a social-purpose cooperative that leverages the buying power of community institutions to help lower operating costs, while also making investments in sustainability, worker equity, and community organizing. With over \$8 million in savings in DC, MD, and CT, CPA wants to help incubate an Illinois based cooperative business.

Together we'll work to get lower prices, better services, and build real consumer power that can make positive changes in our communities!

To participate in our upcoming energy group aggregation, have your congregation or institution's business manager fill out this 5-minute survey: <http://bit.ly/CPA-ENERGY>

By filling out this form and submitting an electrical bill you are giving CPA data to project potential cost savings and are not committing at this stage to participating in the purchase. Non-member institutions are welcome to participate!
